REPORT:

Company, and its future prospects, though there is yet a large amount to secure before we can confidently look to the completion of our noble enterprise, yet that there is no reason to despair of its success if one united and vigorous effort be made by its friends. The resources of the country through which it passes, with the liberal terms offered to stockholders, together with the assistance they are persuaded they can rely upon, your Committee believe sufficient to ensure a speedy commencement of the work with a prospect of its completion in a reasonable time.

The Committee have deemed it advisable to recommend a reduction of the salaries of the officers; leaving to the Directors the power of fixing that of Engineers; limiting the salary of the Chief Engineer.

They are also impressed deeply with the importance of an early commencement of the work, and recommend the adoption of a resource lution to that effect, as soon as the amount ne cessary under the restrictions of the former resolutions of the Company, can be raised. The Committee therefore recommend the aoption of the following resolutions:

Resolved, That it be understood, in all elections for officers of this Company, that no salary is to be paid until the Road is commenced; but compensation shall be allowed for actual services only, in the meantime proportionably to the amounts paid per annum, for such officers respectively; together with such incidental expenses as they may incur for the Com-

Resolved, That on all payments for subscriptions to the stock of this Company, interest shall be allowed from the date of each payment, at the rate of 6 per cent per annum, until the road is finished, when the amount of interest so paid shall be charged to the general account of the cost of construction: and also that interest be allowed from the date they receive credit for their estimates, to such contractors, as agree to take part or the whole amount of their contract in stock.

Resolved, That the resolutions adopted at the last meeting of the Stockholders, as regards the officers of this Company, and their salaries, he so amended as to read as follows: The President of the Company to receive a salary of Two Thousand Dollars. That the salary of Engineers be left to the decision of the Board of Directors, so that the salary of the Chief Engineer shall not exceed Twenty-Five Hundred Dollars That the salary of General Agent be reduced to \$1200 per annum; and the salary of Secretary and Treasu.

> Major General Pi'low. - We confess to have entertained a strong feeling of prejudice against officers. We censured him in no measured terms as the author of the famous " Leonidas" letterand almost held him in contempt as an unprincipled pretender. But we have read the pamphlet ontaining his defence before the Court of Inquiry, and must candidly admit, that our opinion o him has undergone a change. His defence is written with great ability; and his summing up cifications, is done in a masterly manner. It may handles Nicholas P. Trist with peculiar severity pers for his supposed desire to puff himself, and we have contributed our mite: but on the evidence contained in his defence, we admit that we have done him injustice, and retract what we have said to his disparagement—having no disposition to injure the reputation of any man, and particuarly an officer who appears to have borne himself various accounts of the extraordinary disorder gallant'y on the field of battle.

There is a manifest capacity not only to act in military matters, but to think with equal vigor and effect acknowledged by every citizen of North Car- lity and propriety. We venture to say that no army of like numbers in the world, ever produced more of this sort of men, and probably not half so many. Almost all of the prominent officers, as occasion has called them out, have displayed great felicity of thought, and sound practical suggestions have been blended an enduring place in the public mind.

INTELLIGENCE BY THE NIAGARA. TERRIBLE NEWS FROM THE PRENCH REPUBLIC. FOUR DAYS' FIGHTING.

The Archbishop of Paris Murdered. Fourteen Officers, Six Deputies, and 15,000 Men killed and Wounded.

### THE REPUBLIC TRIUMPHANT.

The steamship Niagara, Capt Ryric, arrived at Boston at 7 o'clock on Wednesday morning, from Liverpool and Halifax, making her passage in less than eleven days. From the New York and Philadelphia papears of yesterday morning, we extract the following additional particulars of the terrible conflict at Paris.

Wilmer & Smith's European Times gives the following account of this new and bloody drama in the history of France:

One of the bloodiest dramas the world ever witnessed-one of the most ferocious and obstinate insurrections which the ensanguined history of France has had to record from her earliest annals-has just been brought to a close in the streets of Paris by the absolute annihilation of the revolted party, and triumphant success of Republican arms.

To furnish any adequate idea of this occurrence would be immeasurably to surpass our limits, and we therefore refer to the newspaper accounts, which, doubtless, will be perused with feelings of the profoundest solem-

After four days and nights of incessant fighting, the insurgents have been utterly vanquished, with a loss on both sides of 10,000 killed and 25,000 wounded, which is believed to be much beneath the true estimate.

The commencement of the rebellion appears to have been made by a deputation of ouvriers, who waited upon M. Marc at the Luxemburg He listened to their grievances, but observing that their spokesman had been active in the affair of the 15th May, said to the men, "you are not the slaves of this man, you can state your own grievances." This expression was distorted amongst the workmen, that M. Marc had called them slaves, and it seems to have been the signal for the conspirators, who had organized a vast movement to commence their operations.

On Thursday night, the 22d of June, the first barricade was raised, and the troops and the National Guards called out On Friday, the 23d, the insurgents possessed themselves of all that portion of the right bank of the River Seine, stretching from the Fouborg St. Antoine to the river; whilst on the left bank they occupied all that portion called the Cite. the Fouborgs St. Marcel, St. Victor, and the cation of the insurgents between the two banks of the river were maintained by the possession of the Church St. Gervaic, a part of the quarter of the temple. The approaches of Notre Dame and the bridge of St. Michael.

By these extensive lines of operation the insurgents occupied a vast portion of the most defensible part of the city, and actually threatened the Hotel de Ville, which, if they had succeeded in taking, might have secured the first victory on their side.

On Friday there were partial conflicts. but the insurgents seemed to be occupied more at fortifying their position than in actual fighting, but whatever success the government troops may have had in various quarters where conflicts took place, as at the terrible fights in the vicinity of St. Dennis and St. Martin, it now appears that the enthusiastic courage of the insurgents repulsed them, and even beat them in other parts of the city. M. Lamartine rode with the staff of Cavaignac, through Paris, to quell the insurrection; but it was evident that nothing but the power of arms could compel the insurgents to yield. The Government forces were divided into three divisions, and large masses of troops were brought to bear with artillery upon the position of the insurgents; but still Friday passed, and the insurrection had evidently gained strength.

On Saturday, the 24th, the National Assembly declared itself in permanence, and Paris was placed in a state of siege; the executive power was delegated absolutely to Cavaignac, and half-past ten, the members of the Executive had resigned. They declared that they should have been wanting in their duties and honor, had they withdrawn before. As sedition is a public peril, they only withdrew before a vote of the Assembly. Reports poured in every hour to the Assembly-and, as the intelligence arrived of the slaughter of the National Guards, and the fall of one General after another, who was killed or wounded by the insurgents, the sensation became deep and alarming.

Various proclamations were issued by Cavaignac to induce the insurgents to lay down their arms, but to no effect.

The whole of Saturday was employed in desperate fighting on both sides, except a lull during a frightful thunder storm. In the afternoon of Friday the conflicts were without intermission. On Satuaday, however, the carnage and battles on the south of the river were

During the whole of Friday night, and until three o'clock on Saturday, the roar of the artillery and the noise of the muskets were incessant. In this frightful state of things the Assembly betrayed not a little alarm. A deputation from the Assembly were proposed to go and entreat the combatants to cease this fratricidal strife, but all the successive reports proved that the insurgents were bent on only yielding up the struggle with their lives, and their valor was only surpassed by their des-

perate resolution. On Saturday night, at 12 o'clock, the capital was in an awful state. Fighting continured flag, the banner of the Republique Democratique et Sociale, was hoisted.

The centre of the insurrection was established on the low ground by the river. Its wings rested on these opposite heights. The Brinkley Jas w Hotel de Ville was its most advance post in front, but all the narrow streets and the quays from that building to the faubourg St. Anto-Burrows Islands, sen'r, Jas ine, were in the hands of the insurgents. The attack was carred on upon this point by Gen. Duvivier, but such were the preparations of resistance made that, according to the written statement of the Mayor of Paris to the National Assembly, the whole district was converted into a vast fortress, which could only be reduced stone by stone.

The streets were barricaded, the windows were lined with mattresses, behind which a murderous fire was poured down on the troops, Cowan & McIhenuy and the gangway of internal communication had been opened from house to house, which supplied ammunition or means of escape to Dowel mr the besieged. The progress of the force from Deems Chas T this point was accordingly very slow, and it Eagles R W was in the rear of this position that the final stand of the insurrection was made on Mon- Emery Cale day afternoon

But the operations were carried with equal skill and courage at the two wings, for that Foy Mary term may strictly be applied to the positions which the insurrection has assumed. On the Gautier W H 3 left bank of the Seine, the left wing extended to the Pantheon, by the step and narrow line of the Rue St. Jacques, which was complete- Grist J y barricaded, and even fortified with cannon. The attack on this position alone lasted 15 hours, hard and uninterrupted fighting; it was

the first which was re-conquired by the troops. The attack on the right wing, which extended to the clos St. Lazari, was conducted by Lamondere, who gradually forced his way on the third day to the barriers, and then affected Hill Sarah J his junction with the Central division of Gen. Duvirier. It may be referred from the regular distribution of the insurrectionary forces, that their plan was to exhaust the troops by a fruitless attack on the barricades, and then to assume offensive operations by an advance Hardson Ann Henck George D of the two wings upon the National Assembly Hannum LT Hill Benjami and the west end of Paris, so as to place the Hawes Ann I government between two fires, and to reduce it to inevitable destruction. To Mothers and Married Ladies. This Fx.

tract of Sarsaparilla has been expressly prepared in reference to female complaints. Indeed this medicine is invaluable for all the delicate diseases to which women are subject. It braces the whole system, renews ermanently the natural energies, by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation, which is the case of most medi-cines taken for female weakness and disease. By using a few bottles of this medicine, many severe and painful

Great blessing to Mothers and Children. It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attending upon child-birth ever discovered. The great beauty of this medicine is, it is always safe, and the most delicate

ise it most successfully.

Beauty & Health. Cosmetics, chalk, and a vawhen nature is not thwarted by disease or powder, or the skin inflamed by the alkalics used in s. aps, beau-tifies its own production in the "human face Divine," as well as in the garden of rich and delicately tinted and variegated flowers. A free, active and healthy circulation of the fluids of the coursing of the pure, rich blood to the extremities, is that which paints the countenance in the most exquisite beauty. It is that which imports the indescribable shades and flashes of Lyveliness that all admire, but none can describe. This beam ty is the offspring of nature—not of powder or soap. If there is not a free and healthy circulation, there is no beauty. If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold and i pure, she is not beautiful. If she be brown or yellow and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to the eyes that is fasci-

nating.

This is why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close who take but fittle exercise or are commen it close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes and beautiful complexions, they should use Dr. Townsend's Sarsapa illa. Thousands who have tried it, are more than satisfied, are delighted. Ladies of every station, crowd

our office daily.

Notice to the Ladies. Those that imitate Dr. Townsend's Sarsaparilla, have invariably called their stuff a great Remedy for Females, &c. &c., and have copied our bills and circulars which relates to the complain's of women, word for word-other men who put up medicing, have, since the great success of Dr. Town send's Sarsaparilla in complaints incid at to females, recommended theirs, although previously they did not. A number of these Mixtures, Pills. &c., are injurious o females, as t ey aggravate disease, and undermine Scrofula Cured. This certificate conclusively

proves that this Sarsaparilia has perfect control over the most obstinate diseases of the Blood Three persons cured in one house is unprecedented.

Caution. Owing to the great success and innense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced ma-king Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Vellow Dock, &c. They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements. They are only worthless imitations, and should be avoided.

NO DECEPTION. NOT a week passes away without we have to

ecord some of the most astonishing cures of long outinued Asthma, Incipient Consumption, Bleed ng at the lungs, Bronchitis, Difficulty of Breathing, and various diseases to which the Lungs and hroat are subject, by DR. TATLOR'S BALSAM OF ing the most remarkable cures. Thousands have inestimable virtues of this medicine. If you have a cough, shortness of breath, asthma, spitting blood, pain in the side, or any other sympton of consumption, hasten and be cured by Dr. Taylor's Balsam. Other remedies may quiet or lull the disease, but resort at once to this great balm, and you will be at once cured. For strengthening the system & eradicating all

impurities, no medicine can equal it. The following certificates are only a SAMPLE OF HUNDREDS. We daily receive many testimonials in its favor, too numerous to make public. The dose is small and one bottle often cures the worst cases: and one bottle often cures the worst cases:

Great Cure for Consumption. For seven years I was afflicted with Consumption, & it seemed impossible for any thing to cure me. I had all the most aggravating symptoms, as right sweats, raising blood, violent and distressing cough, pain in the side and chest, debility and want of appetite. I truly believe I could not have lived but for the use of Dr. Taylor's Balsam of Liverwort and the blessing of God, which have saved my life by restoring me to health. ALEX. SMITH, Sexton of Rev. Mr. Matthew's church, Chrystie-st.

Consumption 4 Liver Complaint Cured! For 6 years I suffered with these awful diseases, and from my heart I feel for all similarly afflicted and I beg of them to try Dr. Taylor's Balsam of Liverwort. This medicine cured me when I could not move in bed, and was not expected to live a week - yet I was cured in six weeks by this vegetable medicine.

H. A. Marks, 106 King-st.

Consumption and Dyspepsia Cured! Having been cured of these distressing complaints, which have car-ried me to the verge of the grave, by Dr. Taylor's Bal-sam of Liverwort, from 73 Beekman-street, I consider it my duty to make it publicly known, in the hope of benefitting others. That it saved my life I do not doubt —for I could not eat, and was daily declining, until I was a mere skeleton. I hope this will induce any one afflicted to try it, especially if they love life and health, and want to be cured. It is of wonderful efficacy.
